WHOLESALE PRICE LIST

Spring, 1948

and other Popular Perennials

Our Spring shipping season extends from late February until early June.

All orders, carefully packed, will be shipped at the customer's risk by express collect. If damaged by heat, frost or breakage, report immediately to the Express Company and file claim for the full amount of damage. Parcel Post shipments of small quantities travel at purchaser's risk.

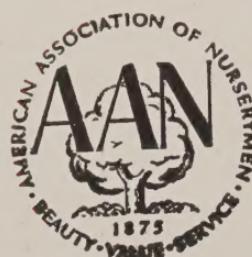

Under present conditions it is difficult to ship all orders for rooted cuttings complete on a specified date. Please allow some leeway.

A Health Certificate signed by the State Entomologist is attached to all shipments.

Orders for at least 25 of a variety and totaling not less than 100 in all, sold at 100 rates.

HARDY PHLOX Liners

The production of Phlox Liners is one of our specialties, which item we expect to have in large supply for Spring 1948. Available from early April through the season until early June.

Furnished not less than 25 of a kind, at \$4.00 per 100.

Orders totaling 300 or more, at \$36.00 per 1,000.

No extra charges for packaging. Express charges collect.

AMERICAN BEAUTY. Near the same clear deep pink color as the Rose of the same name; flowers and panicles large; plants vigorous and sturdy. Medium height.

AURORA. Light salmon-pink beautifully rayed white. Medium height.

BORDER QUEEN. Bright clear pink; profuse blooming with extra large panicles and florets. Medium height to rather dwarf.

BRIGHT EYES. An attractive shade of lavender-pink with crimson centered florets. A strong grower of medium height.

CHIEFTAIN. A very deep crimson variety which does not fade or discolor. In popular demand. Medium height.

COMUS. Orange-vermilion with garnet eye, the general effect being deep bright pink; large heads of flowers. Rather dwarf.

COUNT ZEPPELIN. Pure white with vermilion-red eye; no suffusion of colors. Medium tall.

DAILY SKETCH. Salmon-pink with large carmine centered florets; tall.

HAUPTMAN KOEHL. Plants tall with large deep red flowers.

LILLIAN. Large panicles of beautiful pink flowers.

MOONLIGHT DREAM. This sturdy white Phlox has many laterals, affording a long season of bloom.

MOUNT HOOD. The florets are large, pure white in large broad clusters. Medium tall.

MIA RUYS. Flowers large, pure white; dwarf.

PINK CHARM. Bright clear pink with a scarlet sheen; many flowering branches. Medium height.

RUBY LEE. Plum-purple; large panicles and florets; a broad, strong growing plant.

STARLIGHT. Violet shading to lilac with star-shaped white centered florets. Medium height.

THOR. Deep salmon-pink with carmine-pink shadings; a tall vigorous grower.

ADONIS. This is our most recent introduction and in our opinion the best bright red Phlox to date. Visitors have accepted this new variety with enthusiasm. Its velvety shade of bright fuchsia-red; its large florets and tall strong stems command the eye from a distance. The flowers do not sunburn or fade in color.

Liners : \$8.00 per 100 ; \$75.00 per 1,000.

REDBIRD. Another of our recent originations of real merit. The color is crimson-red with deep red centered florets which adds to its attractiveness. The many florets are borne on well-branched sturdy plants of medium height. A suitable companion to Mia Ruys for fronting the border, being somewhat taller than the lovely dwarf white variety.

Liners : \$6.00 per 100 ; \$50.00 per 1,000.
